## INTERNSHIP

### PHP Developer

Parken Solution Pvt. Ltd. Company

03/2023 - 06/2023

Jaipur

"Successfully completed a dynamic 3-month internship in web development, specializing in PHP and front-end, where I gained hands-on experience in building and maintaining web applications, implementing robust backend and front-end functionality, and collaborating within a team environment to deliver projects."

## PROJECTS

### Tourism Web Application (Aburoadtourism)

Designed and developed a dynamic tourism web application using HTML, CSS, JavaScript, PHP, and additional libraries to enhance functionality and user experience. Created a platform to help tourists explore and plan visits to various destinations with ease. Included comprehensive details for each location, such as high-quality photos, historical information, videos, and immersive 360-degree views.

### E-commerce Clothing Application(WEAR-IT)

Designed and developed a full-stack e-commerce application using the MERN stack (MongoDB, Express.js, React.js, Node.js). Implemented user authentication and authorization with secure login and signup functionalities. Developed dynamic features for adding, updating, and removing products from the catalog. Integrated a shopping cart system to manage items selected for purchase. Ensured seamless front-end and back-end integration for a smooth user experience.
